Digital Asset Claims

Enforcing Liability in the Decentralized Economy

When the platform fails, the wallet is drained, or the roadmap is a lie, we bring the full force of traditional dispute resolution to the digital frontier.

Exchange & Product Liability

Assisting you in critical times.

The System Failed You

You are an institutional trader or HNW investor. You accepted market risk, but you did not accept platform negligence. A crash, malfunction, or opaque algorithm has wiped out your position despite adequate care.

How We Assist & Our Expertise

We dispute technical errors. We are have acted against major global exchange platforms regarding systemic issues, challenging the fairness of platform algorithms, the behavior of tokens, and the accuracy of market data.

Fraud & Recovery

When we step in.

Governance Has Been Hijacked

You are a stakeholder in a project where directors or key-holders are abusing their power. The decentralized structure is being used as a shield for theft, “rug pulls,” or key misappropriation.

How We Assist & Our Expertise

We pursue the veil of anonymity and claims against directors exercising fraudulent control over corporate crypto-wallets. We utilize forensic data insight to establish jurisdiction in global forums to obtain injunctions and freeze assets before they are laundered.

Misrepresentation & IP

Why clients seek our expertise.

The Asset Was a Mirage

You invested in a roadmap that never existed, or your intellectual property is being monetized by unauthorized minters.

How We Assist & Our Expertise

We hold issuers to account. We have handled high-value disputes concerning the intellectual property rights associated with NFT assets. We also pursue claims against investment promoters for misleading whitepapers and advise on revenue models associated with NFT mint revenues.

VASP Liability

When we are asked to help.

The Service Provider is Unregulated

You have funds trapped on a platform that is operating without the necessary regulatory approvals, or “shadow” brokers are withholding your assets.

How We Assist & Our Expertise

We leverage regulatory breaches to force recovery. We handle specific claims against unlicensed Virtual Asset Service Providers (VASPs), using their lack of compliance as a lever to pierce corporate protections and establish direct liability for consumer losses.

Procedural Strategy

The ideal time to engage us.□□□

You Are Locked in a “Click-Wrap” Dispute

You have a valid claim, but the Terms of Service force you into an unfavorable or obscure proceedings via a click-wrap agreement.

How We Assist & Our Expertise

We challenge procedural unfairness. We have represented clients in cryptocurrency arbitration involving click-wrap agreements, and advised on utilizing emergency arbitrator procedures to secure interim relief despite restrictive dispute resolution clauses.
