# Our Services

**THE INTEGRATED ADVANTAGE**

## Expertise across service areas.

In the modern economy, a single mandate often traverses multiple legal realities. A sovereign treaty dispute may hinge on the technicalities of a construction contract; a cryptocurrency hack requires immediate civil asset freezing, regulatory defense, and exchange restructuring; and a commercial space launch demands a synthesis of insurance arbitration, export control policy, and cross-border joint venture structuring.

We are not a collection of isolated departments. We are a single, cohesive unit designed to attack problems from every angle; commercial, procedural, and geopolitical.

**MAJOR LITIGATION**

## Uncompromising representation when the stakes are existential.

When a dispute threatens your reputation, your liberty, or your balance sheet, there is no substitute for rigorous, battle-tested advocacy. Our Major Litigation practice

specializes in “bet-the-company” conflicts and cross-border crises. We are not just litigators; we are strategic architects who understand how a motion in New York affects a freezing order in London and an execution proceeding in Dubai. We also provide a definitive voice on foreign law in the world’s highest courts.

## Complex Commercial & Corporate Disputes

Shareholder conflict, derivative claims, and financial instrument litigation.

More

## White Collar, Fraud & Investigation

Asset tracing, INTERPOL defense, and digital fraud response.

More

## Expert Testimony & Foreign Law

Authoritative evidence for UK, US, and Swiss courts on Civil, UAE, and DIFC law.

More

**GLOBAL ARBITRATION**

# Navigating the architecture of international resolution.

Commerce flows across borders, and so do disputes. We possess deep technical expertise in resolving conflicts outside of domestic court systems. Whether representing a sovereign state

in a treaty dispute or a contractor on a multi-billion dollar infrastructure project, our Global Arbitration approach is defined by procedural precision and sectoral fluency. We understand the technicalities of construction delays, the nuances of bilateral investment treaties, and the emerging protocols of blockchain dispute resolution.

## Investor-State Dispute Settlement (ISDS)

Protecting foreign investment and defending sovereign immunity.

More

## Construction & Engineering

Mega-projects, infrastructure, and turnkey energy disputes.

More

## Commercial & Sectoral Arbitration

Specialized counsel for insurance, aerospace, and technology conflicts.

More

**CRITICAL TRANSACTIONS**

# Structuring the deals that define the future economy.

The global economy is shifting from tangible to digital, and from institutional to decentralized. Our Critical Transactions practice is at the vanguard of this transition. We do not just

document deals; we structure novel legal frameworks for assets that didn’t exist a decade ago. From structuring “Play-to-Earn” economies and NFT royalties to managing high-value M&A in regulated sectors, we ensure your innovation is built on a foundation of legal solidity. We also serve as the silent guardians of private wealth.

## Digital Assets & Fintech

Web3 structuring, crypto-compliance, and exchange licensing.

More

## Corporate Governance & M&A

Cross-border acquisitions, due diligence, and strategic risk.

More

## Private Wealth & Family Office

Asset protection, succession planning, and HNW investment disputes.

More

**SENSITIVE GEOPOLICY**

# Where private ambition meets public power.

Business does not occur in a vacuum; it operates within the friction of government policy, tax regulation, and international relations. Our Sensitive Geopolicy practice is unique, offering support that transcends traditional advice to

address policy drafting, government affairs, and fiscal strategy. We are pioneers in the economy of outer space, advising nations on agency formation and corporations on orbital licensing. From resolving retrospective tax disputes to navigating sanctions, we guide clients through the corridors of power.

## Space Law & Policy

Sovereign strategy, commercial launch operations, and aerospace defense.

More

## Fiscal Policy & Tax Controversy

High-value tax disputes, licensing regimes, and economic policy.

More

## Government Affairs & Regulation

Administrative law, legislative drafting, and sovereign immunity.

More

**Your mandate requires more than just advice. It requires strategy.**

# Whether defending a billion-dollar claim or launching a constellation,

**our team is ready to deploy.**
